"Technical Assistance for Capacity Building on Safety and Security Training Requirements of the Turkish Civil Aviation"

ANNOUNCEMENT

SPECIALIZED AVIATION TRAINER TRAINING

Within the scope of Technical Assistance for Capacity Building of Safety and Security Training Requirements of the Turkish Civil Aviation Sector (Publication Reference: EuropeAid/135021/D/SER/TR), it is aiming to increase human resource skills and technical capacity of Turkish civil aviation in the public and private sectors in line with the EU 'acquis' as well as raising awareness on air safety and security in the Turkish civil aviation sector.

Directorate General of Civil Aviation (DGCA) will establish a state of the art Aviation Academy equipped with all modern amenities and facilities near the Istanbul Ataturk Airport, co-financed by the European Union and the Republic of Turkey. In the framework of this Project, DGCA is the main beneficiary institution. The Aviation Academy is planned to become operational by the end of 2017.

In accordance with this purpose, the "**Train the Trainer Program**" is intended to prepare 19 specialized Trainers for their future work in the Turkish Civil Aviation Academy (TCAA).

The 3 weeks training program will be delivered in English and will start on 29th May 2017. The most convenient timeframe and location for the training will be determined, based on the availability and place the majority of the participants are residing.

1. QUALIFICATION AND EXPERIENCE

1.1. Educational Background and Professional Experience

- Attaining a higher education degree with minimum 3 years experience in civil aviation fields.
- In the absence of a higher education degree, an equivalent professional experience of minimum 5 years in civil aviation fields.
